# GISELLE'S WORLD

Play as Giselle, collecting items and creating outfits and completing tasks. You can sing songs, interact with other people and animals, solve puzzles and more.

Collect items throughout your adventures to create new dresses. Each new dress Giselle creates allows her to sing a new song when she wears it! Songs have different magical effects throughout the game.

You can also use collected items to upgrade your dresses, awarding Giselle more Health and Energy.

## Navigating

Giselle can leap, climb and swing her way through the game.

**Cartwheel**— Press the **B Button** to cartwheel sideways. Giselle can move quite a distance when she does a cartwheel, so be careful where you are and what you are standing near.

**Wall Climb**— Giselle can climb up vine-covered walls easily using the **+Control Pad ↑↓**. She can also jump from one wall and grab on to another using the **+Control Pad ←→**.

**Ledges**— Giselle can edge her way across a narrow ledge using the **+Control Pad ←→**.

**Hand-Over-Hand**— Giselle can traverse ropes and power lines using a hand-over-hand style. Use the **+Control Pad ←→** to control her progress.

**Parallel Bars**— Use parallel bars to swing from one location to the next. Use the **stylus** to help Giselle swing or fly through the air like a circus performer.

**Pole Climb**— Use the **+Control Pad ↑↓** to climb up and down poles.

## Songs

When you find a colorful song stage in either Andalasia or New York, press the **X Button** or tap the Song icon with your **stylus**. Special symbols will be displayed on the **Touch Screen**. Trace the symbols with the **stylus** to sing a song.

If you trace all the symbols correctly, your song will have its full effect on the environment.

### Song Types

**Flower Dress**—The song sung in the flower dress is a Hi Tempo song. It causes Giselle and the world around her to speed up.

**Pink Dress**—The song that goes with the pink dress puts all nearby characters in a cheerful mood. You can also sing this song on the stage to trigger various devices.

**Wedding Dress**—The wedding dress song puts all nearby characters in a sad mood. Time stops so you can move past obstacles and enemies safely.

**Blue Dress**—The blue dress song allows Giselle to walk on water.

**Yellow Dress**—The yellow dress song is for cleaning. All Giselle's cleaning will go faster with this song and she can clean objects that normally can't be cleaned.

**Purple Dress**—The purple dress gives Giselle all of Edward's abilities so she can battle enemies who cross her path.

## Making and Enhancing Dresses

Use the items Giselle collects to make and enhance dresses. You can also mix items together to create new objects.

Go to the Dressmaker menu in Giselle's room. You can choose Make a Dress or Combine Materials.

### Make a Dress

When you select Make a Dress, you'll choose the dress you want to create or enhance. The required ingredients will be displayed on the upper screen. If you have all the ingredients you need, you'll see the mixing barrel.

Use the **stylus** to mix your ingredients in the mixing barrel in the direction the swirling arrow is pointing. Be on your toes, it will change directions when you least expect it. Once the mixing is complete, you'll see the finished dress and you can wear it in the game.

## Combine Materials

When you select Combine Materials, the **Touch Screen** displays a list of your ingredients. Select two types of ingredients and the quantity of each.

Next you'll see the mixing barrel. Use the **stylus** to mix the ingredients in the barrel. Once the mixing is complete, you'll find out what you've created!

## Animal Helpers

In both worlds, Giselle will make new animal friends as she ventures through the game. She can call on these animals to help her at any time. Use the **stylus** to tap the Animal icon on the **Touch Screen** or press the **Y Button** to summon an animal helper.

Some animals help Giselle by retrieving or activating objects. Others can distract enemies or lure them away.

# EDWARD'S WORLD

Play as Edward with lots of swordplay action! Defeat enemies to continue your search for the lovely Giselle. Use the **stylus** to interact with characters and objects. You'll also use the **stylus** to control Edward's sword. Use the tip of the **stylus** just like the tip of a sword; slide it left, right, up and down and jab as directed by your on-screen interface in Battle mode.

## Battle Mode

Touch an enemy with the **stylus** to enter Battle mode. Edward's advantage in battles is determined by your success in a Battle mode mini-game. Depending on how well you do in the mini-game, Edward will have a different power in the battle: Higher Attack, Defense, Health or Energy.

Once the battle begins, the Battle icons will be displayed on the **Touch Screen**. Before time runs out, perform the actions shown by the Battle icons. How well you perform these actions determines the power and accuracy of Edward's sword blows.

## Slow Motion Attack

Slow-motion attacks can be performed when Edward has enough Energy in normal gameplay. If Edward's Energy bar is full, press the **X Button** to initiate a slow-motion attack. Touch one of the Attack icons on the **Touch Screen** to choose your attack. Edward is invulnerable during slow-motion attacks. Once the Energy bar is empty, the slow-motion attack is over.

## Horseback Riding

Sometimes, Edward will need the help of his trusty steed, Destiny. You must direct Edward and Destiny through the path as shown, avoiding hazards along the way. Touch the horse with your **stylus** to get on his back.

Use the **stylus** on the **Touch Screen** to control your ride.

Touch Destiny	Jump
Touch Edward	Duck Head
Draw Circles Clockwise	Speed up
Draw Circles Counter-Clockwise	Slow Down

## PIP'S WORLD

Pip is a chipmunk who is Giselle's best friend. Play as Pip and avoid hazards to make your way to the finish line. Pip has lots of mini-games and gets to collect materials for Giselle.

### Pip's Controls

+Control Pad	Move
A Button	Jump/Enter Hamster Ball
stylus Tap	Jump

### Hamster Ball

Use the **+Control Pad** to move Pip through a variety of maze-like levels. Find the hamster ball and Pip can go inside. Once inside, Pip's speed increases. Use the **stylus** to make Pip jump in his speedy hamster ball.

## ITEMS

Collect items throughout your adventures. Some items can be used to make or upgrade dresses. Others can be combined to make new items.

Some items can be used during gameplay with your **stylus** on the **Touch Screen**. Other items are used in the Combine Materials screen.

## Combining Materials

Go to the Dressmaker menu in Giselle's room and select Combine Materials. All your available items will be displayed. Select the ingredients you want to combine and the quantity of each ingredient.

Use the **stylus** to mix the ingredients in the mixing barrel. Once mixing is complete, you'll have access to your newly created item!

## Rare Mixtures

Some items you'll find throughout the game are very rare. Combining rare items with each other can create very unique creations that give you an awesome bonus. Try your hand at combining rare items and see what you can create!
